There are a lot of coconut trees there so I drink coconut juice all night. There is a river at the front of my grandparents' house so I often swam until dinner time. One night we went to visit the market. It was very exciting because we could drink before we bought. We also played volleyball with some friends living there. They played well and friendly and we were very happy together.

My class at school is studying ~~maths~~. We have to go to many places like rivers, mountains, forests... to talk. Each place has a special thing to draw. When we visit the rivers, we draw the cities or we draw flowers at the hills, the tigers in the forest. Sometimes we do not know what to draw because it is very difficult for us to choose. We eat breakfast at the place we stop to draw. We eat seafood at the sea places, blue vegetables at the villages near the forest, or even food at the house. It was very interesting because learn all the different things from many places on our trip.

My dad and I ~~go~~ sailing last weekend. It was great! My dad woke up very late in the morning and he took up everything like fishing tools, foods and drinks,... with me. He drove us to the river and he rent a boat for our sailing. It was a small boat, but the river was very good, so it wasn't dangerous. We both loved fishing, so we had a lot of fun together. My dad taught me all about how to fish. He said "I don't like noise" so I had to be very quiet on the river. We didn't catch any fish, but we will go fishing again next week.
