I often use it to do my homework and write lessons in my notebook in class.

I also love it because I don't need to get ink from ink pot so many times. I just get ink once then I can use it for a month. The ink pot is very modern because it never lets ink drop on my fingers.

Listening to music helps me enhance my imagination and creativity so I listen to music every day.

Topic 20: Doing homework. Agree or Disagree?

Hi, I'm Rosie. I disagree with the rule that children must do homework. First, doing homework takes free time away from children. It's important for children to try new hobbies, play with their friends and spend time with their family. It's hard to do these things if they must do homework every night. Second, doing homework can make children dislike school. Children spend a lot of time learning at school. Going home and studying more can be boring. For these reasons, I don't think it's a good idea for children to do homework.
