PHẦN TRẮC NGHIỆM

Choose the best sentence A, B, C, or D which has the closest meaning to the answer

Question 1. It's possible we will call off the match.

- A. The match may be cancelled.
- B. We should call off the match.
- C. We must call off the match.
- D. We will cancel the match.

Mark the letter A, B, C or D on your answer sheet to indicate the correct answer to each of the following questions.

Question 2. If we plant more trees, we can _____ the effects of global warming and climate change.

- A. go down
- B. reduce
- C. end up
- D. increase

Question 3. Traffic fumes contribute greatly to air _____ in this city.

- A. pollute
- B. polluter
- C. pollutant
- D. pollution

Question 4. We can buy exercise _____ and put it in the parks, then people will not have to pay to use a gym.

- A. equip
- B. building
- C. equipment
- D. quantity

Question 5. The doctor attached a monitor _____ the mother's stomach so that she could listen to the baby's heartbeats.

- A. into
- B. to
- C. with
- D. on

Question 6. In the 1990s, many people moved _____ and went to live in bigger cities.

- A. away
- B. out
- C. in
- D. aside

Question 7. If we _____ our own water bottles, we can help reduce plastic pollution.

- A. will bring
- B. bring
- C. are bringing
- D. brought

Mark the letter A, B, C or D on your answer sheet to indicate the word whose underlined part differs from the other three in pronunciation in each of the following questions.

Question 8. A. disappointed B. recorded C. interviewed D. graduated

Mark the letter A, B, C or D on your answer sheet to indicate the word that differs from the other three in the position of the main stress in each of the following questions.

Question 9. A. service B. success C. passport D. project

Choose the best sentence A, B, C, or D on you answer sheet to indicate the sentence that best combines each pair of sentences in the following questions.

Question10. The violinist is internationally famous. She played at the concert last night.

- A. The violinist who played at the concert last night is internationally famous.
- B. The violinist played at the concert last night is internationally famous.
- C. The woman she played at the concert last night is internationally famous.
- D. The woman that plays at the concert last night is internationally famous.

Question11. Chemical fertilizers are a major cause of soil and water pollution, but we can't stop using them.

- A. we can reduce soil and water pollution if we stopped using chemical fertilizers.
- B. If we stopped using chemical fertilizers, we could reduce soil and water pollution.
- C. Unless we stopped using chemical fertilizers, we could reduce soil and water pollution.
- D. If we stop using chemical fertilizers, we can reduce soil and water pollution.

Choose the word or phrase which has the CLOSEST meaning to the underlined word(s) in each of the following questions.

Question 12. If we reuse plastic packaging and plastic bottles, we will reduce pollution.

- A. use something less
- B. use something twice
- C. use something again
- D. stop using something

Read the passage and then choose the answers for the following questions

WHERE DO MY RECYCLABLES GO?

Do you ever wonder what happens to your recyclables after they leave your house? That squashed can of Coca-Cola? How about your old homework paper? Let's take a look!

First, the garbage truck picks up your recycled items and takes them to the Materials Recovery Facility, or MRF. This is where they sort the recycled materials into different groups: iron and steel, aluminum, glass bottles, paper, wood, and plastics. A tractor pushes the waste onto a conveyor belt, where workers pick out the pieces of trash that may damage the MRF machines. Sometimes we accidentally put the wrong things in our recycling bin, so these workers help to take them out.

Once all the recyclables are sorted into different groups, each type of material is either put into big containers, or they are **baled**. This means that they are crushed into big cubes. Some materials are cleaned, others are crushed, and most are melted; but all of these materials get recycled into a new product.

At the end of the whole process, the materials that were picked out by the workers or cannot be recycled will be taken to a landfill. This is why it is so important to recycle and to only put what is allowed into your recycling bin. If we throw our recyclables into a regular trash bin, they won't be sent to the MRF and will therefore end up in a landfill. This is a waste of resources and bad for the environment.

Question 13. What does MRF stand for?

- | | |
|-----------------------------------|--------------------------------|
| A. Medication Request Form | B. Materials Recovery Facility |
| C. Materials Reclamation Facility | D. Mutual Recognition of Funds |

Question 14. Why do the workers pick out trash from the conveyor belt?

- | | |
|--|--------------------------------------|
| A. They want to avoid damaging the machines. | B. They want to clean the trash. |
| C. They want to recycle the trash. | D. They want to take the trash home. |

Question 15. To 'bale' is to _____.

- | | |
|--------------------------|------------------------------|
| A. melt into big cubes. | B. clean the trash. |
| C. crush into big cubes. | D. put on the conveyor belt. |

Question 16. All the materials in the MRF eventually _____.

- | | |
|------------------------------------|-------------------------|
| A. get recycled into a new product | B. get cleaned and sold |
| C. go in the trash | D. go into a landfill |

Question 17. What happens if we throw our trash into a regular trash bin?

- | |
|--|
| A. The trash will be recycled and turned into new products. |
| B. The trash won't be sent to the MRF and will end up in a landfill. |
| C. The trash will be cleaned and sold as new. |
| D. The trash will be sent to the MRF. |

Choose the underlined word or phrase which need correcting

Question 18. Studies show that trees and plants improve air qualification which is very bad now because of the traffic

- | | | | |
|---------|------------|------------------|---------------|
| A. show | B. improve | C. qualification | D. because of |
|---------|------------|------------------|---------------|

Question 19. Ho Chi Minh City is the place which I was born and grew up.

- | | | | |
|--------------|----------|---------|---------|
| A. the place | B. which | C. born | D. grew |
|--------------|----------|---------|---------|

Choose the right missing word to fill in the blank

Ever since I was young, I have always wanted to be an inventor. I wanted to create things to change the lives of the people around me. Many children dream of being a fireman or going to space in a (20) _____. They want to be like Neil Armstrong, (21) _____ was the first man on the moon, in 1969. However, I always wanted to be more like Thomas Edison or Alexander Graham Bell, who were both amazing inventors that changed the world. What makes the job of being an inventor so exciting is that you need to be technical and creative. You can create something big, like a new car, or something small, something (22) _____ that you can carry around. I guess that's why I want to be an inventor, because I can choose what I do and what I want to make. Actually, what I really want is to make something for people who need help with their everyday lives. I can't wait to be an inventor. (23) _____, I also know that it isn't going to be easy. It is going to take a lot of hard work and studying. Success doesn't happen (24) _____; it takes a long time to happen. If I can't be an inventor, there are still other jobs I would like to do like being a scientist or an engineer. There are so many possibilities!

→ If _____.

Find and correct the mistake in each sentence

Question 11. Forest causes many serious problems, one of which is that wild animals lose their homes

A

B

C

D

Question 12 _____

Question 13. We can save electricity if we turned off the lights when we aren't using them.

A

B

C

D

Question 14. _____

Put the words into the correct forms

Question 15. Schools should encourage the full _____ of a student's talents. (DEVELOP)

Question 16. Many people think that Michael Faraday is one of the greatest _____ in history.

(INVENT)

LISTENING

Listen to a lecture about climate change and fill in the gap with suitable word.

So, you've probably heard about climate (17)_____. But what changes are happening? The Earth has become warmer by about one degree Celsius since 1880. Why should we care about a one degree difference? In the past, when the (18)_____ dropped by (19)_____ to two degree, the Earth was put into the Little Ice Age, which lasted from the fourteenth to the mid – nineteenth century. Europe and North America experienced years of long winters leading the poor crops and people dying of (20)_____

So, as X increases, ice is melting faster, and sea levels are rising. In the future, some X will face more deadly storms and floods while other places will experience more heat waves and wildfires. Most scientists agree that the cause of climate change is because of X activity. Burning fuels and transportation is the main cause. These gases trap the sun's heat. Cutting down forests also contributes to global warming because trees help reduce the amount of carbon dioxide. CO₂ is the most common greenhouse X. Forests also trap water during heavy rainfall and slow down speed of water flowing into rivers. This helps to reduce flooding. So, what should we do? First, ...
